25% denser than iron

The hidden locks that secure your home when attacked are housed deep in the **molybdenum core**.

This is 25% denser than iron and gives extreme protection from screwdrivers, hammers and drills.

protection.

Ultion houses two hardened
SS630 attack pins that fire
when an attack is detected.

Drilling an Ultion lock is not something that happens quickly or quietly. Before the drill reaches the **molybdenum core** there are 20 hardened steel drill defences.
